Why You Should Choose Symmetry

"This series called "I Choose Symmetry" will give you stories about people who are choosing not to participate in this down economy. These stories will give you new ways to relate to all kinds of people who may be looking for new opportunities and new sources of income. Use these articles by handing them to your contacts who may relate to the people in the story. Rudy always says that "Facts tell and stories sell" so use these stories to help show people what Symmetry has to offer and maybe they will say "I choose Symmetry" too." - Brian Niederhaus
